### STANDARDS REFERENCES

#### **Characteristics according to the European norms EN 420, EN 388**

*A high level means a good protection. (0 = level 1 not reached ; X = test not made).*

EN 388 : mechanical risks	
	<i>Abrasion</i> : 4 / 4 <i>Cut</i> : 1 / 5 <i>Tear</i> : 2 / 4 <i>Puncture</i> : 1 / 4
EN 420 : general requirements	
<i>Dexterity</i> : 5 / 5	

The performances are only for the palm.

**Levels of performance are obtained with tests made in environment conditions precisely defined in the standards. Thus, each use in new conditions are the concern of user responsibility.**

**USING INSTRUCTIONS** : Protective glove exclusively against **mechanical risks**.

**These gloves have got a tensile strength and must not be used when there is a risk of snapping up by machines in movement.**

### PERSONAL PROTECTIVE EQUIPMENT : CATEGORY II

**STORAGE AND MAINTENANCE INSTRUCTIONS** : Keep in the original packaging, normal temperature and moisture, opened and ventilated room, preferably at a temperature between 5°C to 25°C. The long-term storage (> 1 month) in extreme temperatures can cause product damages.

By nature, the nitrile is sensitive to temperature variations.

Recycling under users responsibility. We do not guarantee the recycled products performance levels.
