

SECUMAX 320
CUTS EVEN BETTER THAN IT LOOKS.

NEW

THE SAFER WAY TO CUT.

martor

SECUMAX 320
NO. 32000110

Original size

Safety first

The concealed blade and rounded nose reliably protects you and your products. Furthermore, the knife head has been significantly strengthened making it more robust and longer lasting.

Blade change made easy

Another benefit for handling and safety is the newly designed blade change. Simply lift up at the blade change button and remove the cover. You can then directly access the 4-cutting edge blade.

Perfect ergonomics

Can you feel the difference? The new handle shape with the finger friendly contours fits like a glove. The preset cutting angle is also kind to the hand and arm helping you to position the knife for cutting.

Optimised blade area

Just two examples: The cutting channel is formed so that your safety knife moves away the freshly cut material even faster. Diagonal cuts are also easier than ever to perform. Your benefits: Less effort required for the task.

Two splitting depths

When splitting tape, you now have a choice of depth between 5 mm and 3.5 mm – for even more goods protection. Just open the handle, turn around the splitter, finished. Working with the splitter is just as uncomplicated. Pierce the tape and away you go.

COMBI reloaded. The new generation.

The SECUMAX COMBI was always in a class of its own as a film cutting expert – until it found its legitimate successor. The new SECUMAX 320 makes an instant impression with its outstanding design. And if you look more closely, you will appreciate its inner values. For example, in comparison to its predecessor, the perfected ergonomics and the completely overhauled blade change. What about the subject of „the highest level of work safety“? It has always been in the COMBI’s DNA – and so it will remain that way.

PRODUCT FEATURES

Application

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX 320 blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.

THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.

SECUMAX 320
