Please note: Always wear safety glasses when using face shields.

Jackson Safety[®] Face Shields

QUAD 500[™]

EXCLUSIVE!

Premium Multi-Purpose Face Shield

The QUAD 500[™] is a premium multi-purpose face shield that offers an unparalleled range of face and eye protection solutions. Designed for maximum above-the-neck protection, this product is excellent for heavy-duty grinding, while optional Shade 5 and 8 visors make it ideal for plasma cutting and oxy/acetylene cutting, brazing, and much more.

- All Quad 500 products have been designed to offer maximum above-the-neck face protection, including an extra-large molded polycarbonate window featuring our premium anti-fog coating
- For added protection, the molded window is completely framed on the sides and chin and features an extra-large crown
- The Quad 500 offers exceptional panoramic views with virtually no distortion
- Ideal for grinding, cutting, oxy/acetylene cutting, plasma cutting, brazing and more
- Engineered detents lock in the up or down position until manually adjusted
- Premium **370 Speed Dial[™]** ratcheting headgear suspension - The 370 Speed Dial[™] is highlighted by Jackson's famous "Easy Grab-Easy Turn" oversized adjusting dial and patented swivel adjuster band, achieving maximum comfort and fit quickly, easily, and conveniently—saves time, increases productivity, and improves worker safety!

Available with optional flip-up/flip-down extra-large IR window

- The Quad 500 face shield is also available with an exclusive, **extra-large flip-up/flip-down IR window** for added eye protection when used in applications producing infrared hazards
- It's easy and safe—by keeping the Quad 500 clear window in the down position at all times, the operator can flip the IR shaded window up or down, providing uninterrupted face protection during cutting and grinding operations
- Flip windows available in:
 - **Shade 5 IR** for oxy/acetylene cutting, brazing, and plasma cutting
 - **Shade 8 IR** for oxy/acetylene welding and plasma cutting
- Both the clear and flip windows feature detents that lock in both the up and down positions
- Designed to be used with most goggles, respirators, and all safety glasses
