IMPACTO® BLACKMAXX

Vibration Reducing Glove

Economical solution to vibration protection. Cotton/poly knitted material ensures stretch and breathability. Palm coated with "pods" of lightweight cellular polyurethane. This design combination ensures extreme comfort.

The **BLACKMAXX** vibration reducing gloves use encapsulated air to cushion and dampen vibration, giving the user optimum dexterity with a lightweight feel and reduced bunching.

The vibration reducing gloves absorb and dissipate some of the vibration emitted from pneumatic and impact tools, helping to minimize fatigue to the hands, arms, and shoulders.

Anti-Vibration Air Glove®

**New Mechanic's Style Protection from IMPACTO®
Utilizing Patented Air Glove® Technology**

Certified ANSI S2.73-2002 (R 2007) / ISO 10819:1996

- ✓ *Synthetic ultra suede leather provides excellent wear and flexibility*
- ✓ *Textured patches on the palm and finger tips ensure superior gripping*
- ✓ *Mesh back allows hand ventilation*
- ✓ *Adjustable wrist tab with hook/loop closure*
- ✓ *Durable Urethane Air Bladder protects the palm, fingers and thumb*
- ✓ *Individual chambers for long lasting wear and consistent protection*
- ✓ *Excellent dexterity, fit and comfort*

Protects the worker from vibration when using hand-held or hand guided power tools and machines such as sanders, grinders, disc cutters, hammer drills, chipping hammers, chainsaws, brush cutters, hedge trimmers and powered mowers

The IMPACTO® Air Glove® reduces vibration energy transmission to the palm and fingers. Non-permeable polymer bladder with multiple individual air chambers provide effectiveness that won't degenerate. Soft, flexible bladder designed to conform to the flex-lines of the palm and fingers helping to maintain tool control. The multiple Air Chambers construction of the Air Bladder ensures long lasting wear and it won't bottom out. The Air Bladder helps prevent job specific impact and vibration hazards in the workplace.

Glove	Hand Size	Circumference
Small	7	7" - 8" / 15-18 cm
Medium	8	8" - 9" / 18-23 cm
Large	9	9" - 10" / 23-28 cm
XLarge	10	10" - 11" / 28-33 cm
XXLarge	11	11" + / 33 cm +

Model #BG408

Sold per Pair. For sizing measure the circumference of the hand at the base of fingers. Hand or machine wash in cold water and soft detergent. During use, grip tools firmly but do not over grip. Squeezing too tightly reduces the effectiveness of the bladder.

PRODUCT INFORMATION

PART #: **BG650**

SIZES AVAILABLE: XS, S, M, L, XL, XXL - Sold per Pair

WEIGHT: 0.65 Lb. per pair

DESCRIPTION:

IMPACTO® FULL FINGER ALL LEATHER AIR GLOVE®

UTILIZES PATENTED AIR GLOVE® TECHNOLOGY WITH INDIVIDUAL AIR CHAMBERS, IN THE PALM, FINGERS AND THUMB. ELASTICIZED WRIST, DRIVER STYLE CUFF. SEAMS ARE INSEAMS FOR COMFORT.

APPLICATION:

- Extended use, vibrating and repetitive impact tools, construction, heavy industrial
- Provides vibration, impact and abrasion protection
- Thin, lightweight bladder with individual air chambers ensure durability

CERTIFIED

EN 420 (General Requirements for Gloves)

EN 388 (Protective Gloves Against MECHANICAL RISKS, performance levels below)

2 2 2 2 (Abrasion, Cut, Tear, Puncture)

ISO 10819:1996 (International standard: Mechanical Vibration and Shock - Hand-Arm Vibration -- Method for the measurement and evaluation of the vibration transmissibility of gloves at the palm of the hand)

ANSI S2.73-2002 (R 2007) / ISO 10819:1996 (American standard, identical to the European International standard ISO 10819)

Full finger Air Gloves are classified as anti-vibration gloves. They feature patented Air Bladder technology as vibration damping material located in the palm area, the thumb and fingers past the last joint of the digit, as specified in the anti-vibration glove standard. They reduce the average vibration transmissibility in the medium range to less than 1.0 ($TR_M=0.75$) and the high range to less than 0.6 ($TR_H=0.45$).
